### **Statistics for 10 Oilseeds**

The Commodity Sections for Oilseeds, Oils and Oilmeals provide the supply and demand developments as well as stocks, generally with breakdown by major countries. The forecasts cover the season 2017/18 for crop production and area as well as world supply & demand of the major oilseeds and products. If not indicated otherwise, the time periods in most tables are the five seasons until 2017/18 and the three calendar years ending 2017.

A quarterly breakdown is shown in the respective Summary Tables of each commodity. The section 'Other Commodities' provides world production statistics for red meat.
